Singita Boulders & Ebony

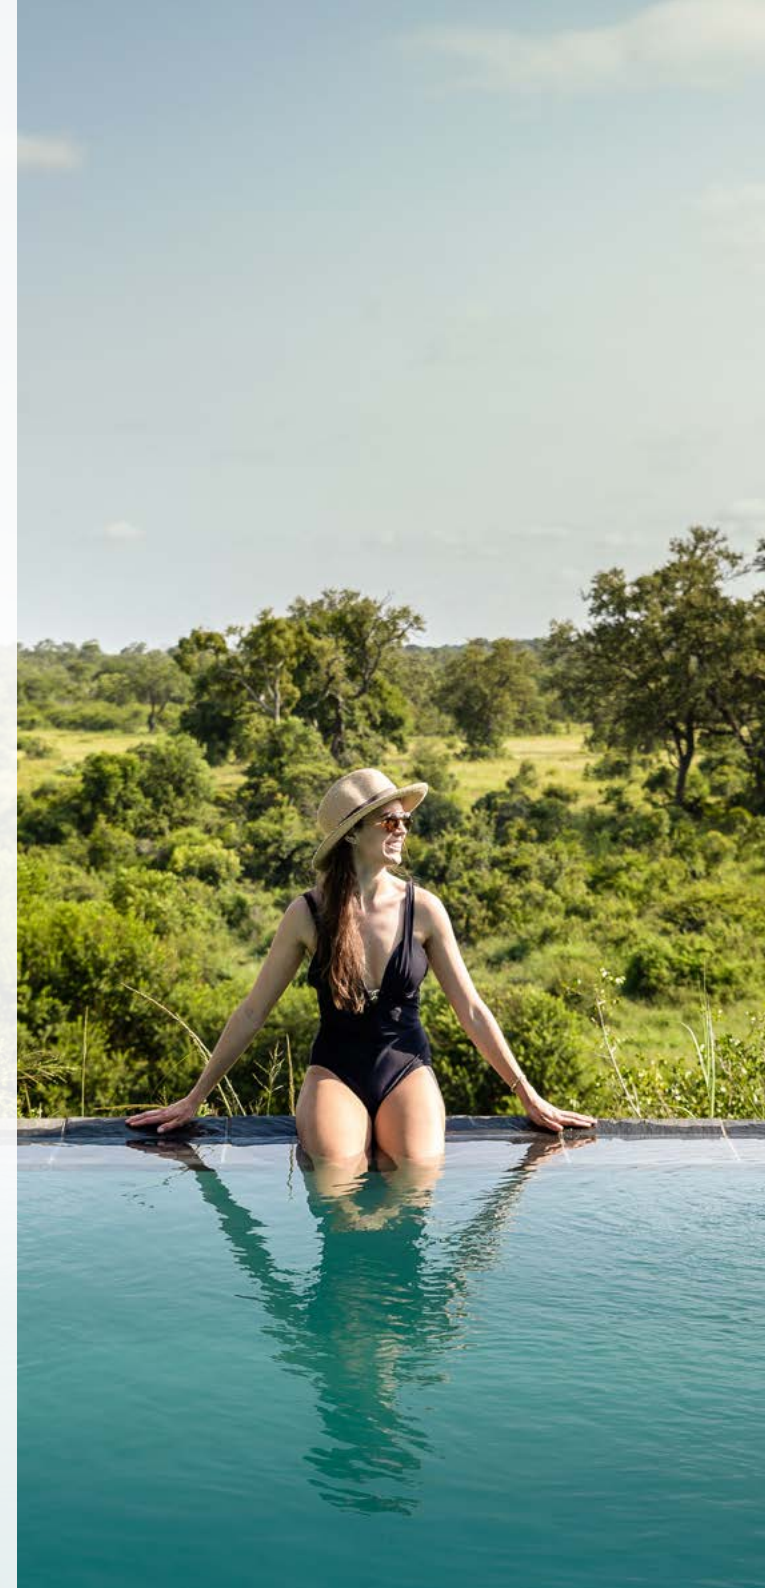

Sabi Sands Reserve, South Africa

An amazing reserve of different species of animals, a true oasis of life, protecting one of the most diverse ecosystems on the African continent. In the enormous areas of savanna covered with acacia trees and forests on the edges of two rivers, there are flocks of buffalos, elephants and lions. During their stay in the Sabi Sand Reserve, guests will also see white rhinoceroses, cheetahs, hyenas, giraffes and zebras, antelopes, leopards and a lot of rare birds.

Guests will be able to admire unusual variety of life forms if they go on a safari to one of three camps: Ebony, Boulders and Castleton. Early in the morning and after dark, guests will cross the reserve in the open terrain vehicles of Land Rover, as well as wander the bush on foot. The camps are incomparably luxurious with beautiful interiors and melt with the surrounding nature perfectly.

Ebony Camp - located on the edge of the Sand River, in the middle of the reserve. The epitome of luxury safari and unforgettable rest in African wilderness. Great food, great service and a fantastic wine cellar. The interiors relate to the tradition of safari, while exposing the beautiful surroundings of the camp. Each of the 12 private apartments has a small but deep swimming pool, where guests can enjoy the views of the Sand River and wild animals.

Boulders Camp - 12 suites with inside decorations which are close to the nature. Warm brown, delicate beige and caramel shades are mixed with stone and wood colors, combining the modern world with its ancient roots. It is a luxurious oasis of peace and tranquility, nestled in a bustling forest. The purity of zen minimalism transferred to the African bush.

Singita Lebombo & Sweni

Kruger National Park

Kruger National Park is one of the most famous wildlife reserves in the world. Not without reason - there are many species of animals inhabiting an extremely diverse landscape. Situated on the southern edge of the park, close to the border with Mozambique, the Lebombo area is one of Africa's truly unspoilt terrains. The Lebombo Mountains, and the N'wanetsi and Sweni rivers, are inhabited by animals of almost every species on the continent. In addition to the numerous birds singing in every corner of the park, elephants, giraffes and zebras, antelopes, hippos and white rhinoceros can be seen during hiking as well as morning and night safaris in open-field vehicles. Such great wealth of animals attracts predators - lions, cheetahs and leopards, as well as hyenas. In this unusual setting, two beautiful camps have been prepared for visitors to fully associate with African wildlife.

Singita Lebombo - the location of Lebombo Camp brings to mind the nesting eel towering over the countryside. The apartments are equipped with glass walls to give guests the opportunity to admire the vastness of the blue African sky over the open space. The interiors of the 15 suites harmoniously combine state-of-the-art solutions with elements taken directly from nature, blending into the environment.

Singita Sweni - in the green heart of the riverside forest a quiet place was created in the shade of trees, away from the noisy world. The interiors of the six apartments await guests, inviting the colors of intense green and dark wood, making the rooms seem to naturally connect with nature. Inspired by the colors of the land, the Sweni camp is the pinnacle of luxury at its best.

In both camps there are: spa centre; gym; swimming pools; terraces overlooking the river, where guests can enjoy fine dining; generously equipped wine cellars providing exquisite beverages.
